Dear Staff Member

You are invited to attend **Taster 2010**, an event hosted by the Division of Technology, Information and Learning Support.

Take a lunch break! Join us and sample the latest technology and services supporting teaching, learning and research at QUT.

With **special guests** from Marketing and Communication (Division of Administrative Services) giving an update on the Web Redevelopment Project - designing for users.

## Using Images for Teaching and Research via Creative Commons search

**Summary** (by **Kate Devitt, GP Academic Skills Adviser**): Images found via <http://search.creativecommons.org> may still be subject to copyright and must be evaluated on an image-by-image basis before use.

Please note that searching in some domains (e.g. **Flickr**) using **Creative Commons Search** still requires QUT staff to check the origin of the image. Many individual **Flickr** account holders store images using **Creative Commons licenses**, yet the images are copyrighted to other organisations. For example, suppose a QUT staff member searches **Creative Commons** for images of mission control during the moon landing and finds this image:

<http://www.flickr.com/photos/vanderkroew/3743797932/>

While the image is hosted by Euclid VanderKroew under a Creative Commons license, Euclid is not the right's holder. Luckily he cites the correct NASA document number in the caption and a NASA url, so that a correct citation can be made according to NASA copyright <http://grin.bq.nasa.gov/copyright.html> . QUT staff wishing to use a NASA image should cite NASA as the originator of the image and abide by

### Celebrate Open Access Week

You are invited to the Open Access Seminar being organised by QUT Library. Learn about the benefits of open access and the options available for increasing the visibility and impact of your research.

If you are already an open access enthusiast, please come along and share your experience with others. Morning tea will be provided.

## Thieme Teaching Assistant : short-term trial until November 15<sup>th</sup>, 2010

**Thieme Teaching Assistant** is a presentation tool featuring thousands of stunning illustrations and clinical images from the books Atlas of Anatomy, Head and Neck Anatomy for Dental Medicine, and Funda-

mentals of Medical Physiology.

Available on the Short Term Trials page <http://>

## HEDBIB : Database on Higher Education

QUT Library has access to **HEDBIB** is a database on higher education systems, administration, planning, policy, and evaluation. It has been maintained by the **IAU** since 1988 with contributions from UNESCO Headquarters; the European Centre for Higher Education (CEPES); UNESCO International Institute for Educational Planning (IIEP); UNESCO International Institute for Higher Education in Latin America (IESALC); the American Council on Education (ACE).

**HEDBIB** is available to current QUT staff and students. Available at all QUT campuses but is NOT available from off campus.

Available from <http://www.library.qut.edu.au/find/databases/fullrecord.jsp?id=5570>

### QUT ePrints Theses by Publication

Use an Advanced search:

- Search for the word "**publication**" in the **Abstract** field
- Limit the "**Item Type**" to "**QUT Thesis**" and **Full-text Status** to "**Public**"

The list of theses by publication will be displayed

## SAGE Research Methods online: short-term trial until December 31<sup>st</sup>, 2010

**SAGE Research Methods Online (Beta)** is a powerful research methods tool, linking SAGE's renowned research methods content with sophisticated search tools to help researchers answer their research methods questions like never before. The site contains 504 book titles, including the entire QASS (aka Little

## Scholarly Publishing Guide

An excellent Scholarly Publishing Subject Guide is available at <http://libguides.library.qut.edu.au/content.php?pid=84068>. The guide provides advice on scholarly publishing, how to choose a journal and maximise the impact of your research publications and the benefits of and how to publish in open access journals. Also one may access this Subject Guide by going to the QUT Library home page and then selecting Research support in the Quicklinks section.

On the next page select the link Scholarly communication and on this page you can access a link to the Scholarly Publishing Subject Guide.

## Dissemination and Sharing of Research Results : NSF Data Sharing Policy

The National Science Foundation (NSF) in the U.S. has released its new research data policy statement .

Investigators are expected to share with other researchers, at no more than incremental cost and within a reasonable time, the primary data, samples, physical collections and other supporting materials

<http://www.google.com.au/imgres?imgurl=http://quads.esds.ac.uk/images/menu.gif&imgrefurl=http://quads.esds.ac.uk/>

created or gathered in the course of work under NSF grants. Grantees are expected to encourage and facilitate such sharing. See Award & Administration Guide (AAG) Chapter VI.D.4 <[http://www.nsf.gov/pubs/policydocs/pappguide/nsf11001/aag\\_6.jsp#VID4](http://www.nsf.gov/pubs/policydocs/pappguide/nsf11001/aag_6.jsp#VID4)>
