As Semester 2 2010 has started...
If you would like us to assist with any Information Literacy components in your units in Semester 2, please let us know. I am able to help by assisting with development of information literacy resources for lecturers' own use during classes, or by delivering the information literacy components myself in collaboration with lecturers.

For more information about Information Literacy at QUT and how the Library can help (including generic cross-Faculty classes and online tutorials), please see the following web page:

www.library.qut.edu.au/services/

Please contact me on:

Course Materials Database (CMD) Update : Sem 2 2010

The Course Materials Database is a repository for high use course materials in support of particular units. You may request that Lecture Notes, Exam Papers or published materials (articles, book chapters etc) be made available in the Database. Published material may be made available by creating a link to a licenced electronic version, if available, or by digitizing a printed version. Please note that the University is only entitled to digitize material within the normal limits for copying of works etc. by educational and other institutions, as described in the Copyright Act 1968 Section VB.

For published materials, there is no need to supply a copy of the material. The Library will locate either an electronic version, or clean print copy for digitization.

To learn more about the CMD including how to add new documents and re-activate existing documents go to www.library.qut.edu.au/services/teaching/cmd_for_staff.jsp

Please submit new requests and reactivate material required for Sem 2 as soon as possible to ensure it is available when required.

Please direct all enquiries about CMD submission to the Library.

Please contact CMD: x83245 cmd@qut.edu.au

Library News
Book requests: Please send

There are still sufficient funds available to purchase monographs/books for all the Disciplines.

Please indicate also if there are any areas of the coursework monographs collection you think need developing.

If you would like to make a request for a resource...

1. Please e-mail details to Dr Nina Prasolova (n.prasolova@qut.edu.au)
2. Please indicate whether the title is for teaching or research needs
3. If the title is relevant to teaching needs, please provide a unit code for which the title is relevant
4. Please let me know if you require more information on any of the titles before requesting them.

I will then consider ordering one copy for the general collection (4 week loan). If you would like multiple copies please specify.

Thank you kindly for your input into QUT Library collection development.

Endnote for Researchers:

20th July in KG-SYN107, 10am-12noon

Some Suggested topics so far (but be sure to send more to me) include:

- Collaborative authorship considerations when using EndNote
- Formatting in-text citations and bibliography in MS-Word
- MS-Word manuscript template wizards
- Term Lists
- Defining Term Lists
- Importing pre-defined journal title term Lists
- Exporting selected references as HTML (to publish on a web page)
- Importing references from PubMed / Medline into EndNote
- Importing references from SciFinder into EndNote
- Anything else??

Presenters: Graham Dawson: Dr Brendan Sinnamon: Dr Nina Prasolova from QUT Library.

If you would like to attend or have suggestions please contact me on:

X82989 or n.prasolova@qut.edu.au

One-on-One Consultations

Just a reminder that I am available for one-on-one consultations or alternatively I am happy to come along to speak to your research group at a time and place suitable to you.

Some things we may discuss include:

- Best journals in your subject area (i.e., those with the highest impact factor) using Journal Citations Reports, SCImago, EigenFactor, PubFocus
- Top researchers worldwide in your subject area using Web of Science, Essential Science Indicators
- Searching a particular database effectively (e.g., PubMed, Web of Science)
- Importing references into EndNote
- Creating Library Subject Guides for your students
- Anything else...?

Meet at my desk, Library training room, your desk or your meeting room.

Please contact me on: x82989 or n.prasolova@qut.edu.au

The list of topics is endless...and entirely up to you...
**Journal Citation Reports® on the web:**

*2009 data now available*

Journal Citation Reports (JCR) 2009 edition on the Web - Science and Social Science Edition has just been released. Briefly (ISI) Journal Citation Reports (JCR) allows you to evaluate and compare journals using citation data drawn from over 10,000 scholarly and technical journals from more than 3,300 publishers in over 60 countries.

By using this database one can generate lists of top journals by impact factor for a given subject category/ies for any of the years 2003-2009 inclusive.

You can search JCR by Subject Category, specific journal or you can view all journals. Remember the Impact Factor is calculated by dividing the number of citations in the JCR year (e.g., 2008) to items published in the 2 previous years (e.g., 2006 and 2007) by the total number of articles published in the two previous years (e.g., 2006 and 2007).

Be might consider to identify not only the Impact Factor value but also the ranking of the journal in its subject category to determine the journals relative importance within a field.

There are two other indicators that are rapidly becoming known to rank journals called the SCImago Journal Rank (SJR) Indicator and eigenfactor.

For a detailed description see [www.scimagojr.com](http://www.scimagojr.com) [www.eigenfactor.org](http://www.eigenfactor.org/)

NOTE: SCImago uses the Scopus dataset as compared to JCR or eigenfactor which are based on the Web of Science dataset from Thomson Reuters.

Access via [www.library.qut.edu.au/db/4968f](http://www.library.qut.edu.au/db/4968f)

If you have any questions about using JCR and/or SCImago/eigenfactor etc please do not hesitate to contact me on: Dr Nina Prasolova, x82989

n.prasolova@qut.edu.au

---

**ProQuest Dissertations and Theses : now is also available from IOPscience extra**

As QUT Library is a subscriber to IOPscience extra, access is now available to the ProQuest Dissertations and Theses database also from within IOPscience.

The ProQuest Dissertations and Theses database indexes over 2.5 million doctoral (PhD) dissertations and master's theses from students all over the world of which more than two million are available in fulltext PDF format.

The database offers fulltext for most of the dissertations added since 1997 and strong retrospective fulltext coverage for older graduate works.

Try any search term and see the new ProQuest tab at the top of your results.

**Nature News : Science Metrics Site**

ProQuest Entrepreneurship: short-term trial until August 10th, 2010

ProQuest Entrepreneurship supports the study and practice of entrepreneurship. It includes:

- Video clips with advice from successful entrepreneurs
- Comprehensive startup toolkits including templates, sample business plans and more
- The latest research from thousands of scholarly resources
- Data and market research for assessing new products and ideas
- Entrepreneurship teaching resources including business cases

The interface for ProQuest Entrepreneurship was designed for entrepreneurs wanting quick access to the latest information on business topics, quick links to the most highly sought information, and recommendations from experts in Editor’s Picks. ProQuest Entrepreneurship can be cross-searched with other ProQuest databases such as ABI/INFORM to provide users with a more robust set of results.

TED: ideas worth spreading: inspirational talks and presentations

TED <http://www.ted.com> is a small nonprofit devoted to Ideas Worth Spreading. It started out (in 1984) as a conference bringing together people from three worlds: Technology, Entertainment, Design. Since then its scope has become ever broader. Along with two annual conferences - the TED Conference in Long Beach and Palm Springs each spring, and the TEDGlobal conference in Oxford UK each summer -- TED includes the award-winning TEDTalks video site, the Open Translation Project and Open TV Project, the inspiring TEDx program and the annual TED Prize.

On TED.com, the best talks and performances are made from TED and partners available to the world, for free. More than 700 TED Talks are now available, with more added each week...
